You take a pill everyday for 21 days.

Try and take it at the same time every day.

After 21 days, you stop taking the pill for 7 days.

You will have a period.

After 7 days, start a new packet of pills.

See your GP or doctor to get more pills.

You should still use condoms when having sex.

Condoms can prevent sexually transmitted infections.

Remember that it is your choice if you want to have sex or not.

You should never have sex if you don't want to.
